

VT408 / Extension unit

Allows to increase the number of sensors connected to any monitoring unit. Adds 8 analog sensors.
Connects on CAN port and allows further CAN daisy chain connection.
Sensors connected to the extension unit appears in the system automatically.
Max. distance from the monitoring unit is 225 meters

Dimensions	Size 110 x 40 x 68 mm
Weight	0.5 kg
Inputs	2 x RJ-12 8 analog sensors
Operating characteristics	Temperature : Min. -10° C - Max.80° C Humidity : Min. 5% - Max. 95% (Non-Condensing)
Power input	12V DC, 1A
Network Interface	CAN open
Mounting	Desktop Wall mount
Extensions	CAN RJ-12 ports
Status Indicators	LED indication for Power / Network connectivity LED indication for CAN bus connection

Components

Red / Green Led

HS Code

Manufactured in EU.
